

Become a VMware Certified Professional

New Horizons is a VMware Authorized Education Reseller

As a *VMware Authorized Education Reseller* in the VMware Partner Network, New Horizons is endorsed to provide training and certification in VMware's market-leading virtualization solutions in accordance with their high standards. Our partnership will allow us to provide the most up-to-date and comprehensive training courses possible.

Our official course offerings are developed internally by VMware, and are taught using equipment that conforms to VMware established standards by *VMware Certified Instructors* (VCIs). VCIs must meet a minimum standard of technical and delivery capabilities as defined by VMware.

The Advantages of Becoming a VMware Certified Professional

The demand for IT professionals with datacenter virtualization skills is increasing, and you can distinguish yourself in the job market with the *VMware Certified Professional* (VCP) certification that validates your technical capabilities. This industry-recognized certification requires completion of a VMware-authorized training course, which includes hands-on experience with VMware technologies. The VCP certification confirms that you can successfully install, deploy, scale, and manage VMware vSphere environments with the skills obtained by a minimum of six months experience with VMware infrastructure technologies.

VMware Certified Professional on vSphere 4 (VCP4)

VMware vSphere: Automation Fast Track (V4.1)

This hands-on course explores installation, configuration, and management of VMware vSphere™ using the VMware vSphere Client and VMware vSphere PowerCLI. vSphere PowerCLI automation can reduce your IT costs while improving efficiency, availability, flexibility, and manageability.

VMware vSphere: Install, Configure, Manage (V4.1)

This hands-on training course explores installation, configuration, and management of VMware vSphere™, which consists of ESX/ESXi and vCenter Server. The course is based on ESX/ESXi 4.1 and vCenter Server 4.1. Completion of this course satisfies as a prerequisite to take the VMware Certified Professional 4 exam.

VMware Certified Professional on vSphere 5 (VCP5)

VMware vSphere: What's New (V5.0)

This hands-on training course explores new features in VMware vCenter Server™ 5.0 and VMware ESXi™ 5.0. Topics include VMware vSphere® 5 installation and how to upgrade from vSphere 4.x to vSphere 5.0. vSphere 5.0 is the first version of vSphere to include only the ESXi hypervisor.

VMware vSphere: Install, Configure, Manage (V5.0)

This hands-on training course explores installation, configuration, and management of VMware vSphere®, which consists of VMware ESXi™ and VMware vCenter Server™. The course is based on ESXi 5.0 and vCenter Server 5.0. Completion of this course satisfies the prerequisite for taking the VMware® Certified Professional 5 exam.
